PRODUCTION DEMAND CHANGES.

YOUR WORKFORCE DOESN'T HAVE TO.

Shipbuilding workloads naturally rise and fall. Program ramp-ups, overlapping vessels and delivery schedules can create short-to-medium-term demand for additional experienced trades.

A SMARTER WAY TO MANAGE WORKFORCE DEMAND

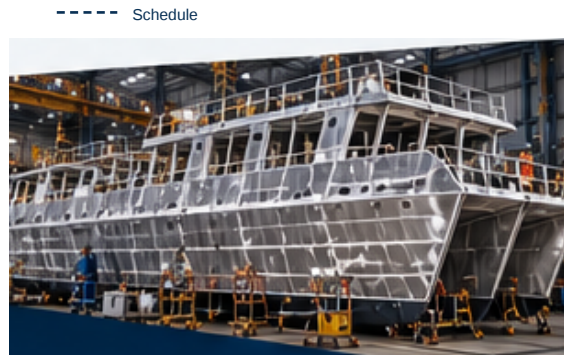

Maintain your core workforce for everyday operations. Access experienced shipbuilding trades when you need them.

STEEL & ALUMINIUM SHIPBUILDING CAPABILITY

STEEL VESSELS

ALUMINIUM VESSELS

Experienced trades for complex marine builds, vessel structures and production environments.

SHIPBUILDING EXPERIENCE MATTERS.

We focus on tradespeople with proven vessel-construction experience who understand:

VESSEL CONSTRUCTION

Structural fabrication and complex builds

DRAWINGS & 3D MODELS

Shipbuilding drawings and 3D model systems

WELDING & FABRICATION

Steel and aluminium trades matched to your production requirements, including MMAW, FCAW and aluminium MIG experience.

SHIPYARD ENVIRONMENT

Production, safety, quality and traceability

TRADES WE SUPPLY

Boilermakers

Welders

Fabricators

THE RIGHT CAPABILITY, NOT JUST MORE PEOPLE

Tell us the trade, material, welding process and experience you require. We source shipbuilding personnel to match - ready for your site-specific testing and qualification requirements.
